

# P-405 One-Yard Tilt Trucks

Our latest series of one-yard capacity tilt trucks features 100%, rotationally molded polyethylene to deliver up to 30% more strength than others molded from structural foam or blowmolding with polypropylene (PP).

## Standard Features

- Rotationally molded from waterproof, chemical-resistant polyethylene
- Powder coated, steel base
- Powder coated, steel handle
- Torque-resistant, molded-in inserts
- Two 10" x 2" wheels and two 4" x 1 ¼ swiveling casters
- Gray color

## Featured Options

- Heavy-duty, built-in steel tube frame support
- Extra heavy-duty wall thickness
- Permanent, molded-in logos, graphics, tracking information
- Powder coated, metal nose guard
- Drain holes
- Hinged access panel
- Dust covers
- Rotationally molded, hinged, split lid

The P-405 Extra Heavy-Duty safely handles a whopping 2200 lbs. of material.

P-405 tilt trucks nest and stack.
